LCAA Airbag

Calling All AeroGardeners...

This is a reminder that barring bad weather our first FIELD DAY of the year is ***THIS Saturday April 10th starting at 9AM.***

We usually work until noon, have lunch and then fly what we brought to the field.

Looking for as many able bodies as possible and allowed by law to come help fix up our stuff in preparation for a fantastic summer flying season. We will also be doing our semi-annual Woods Road cleanup.

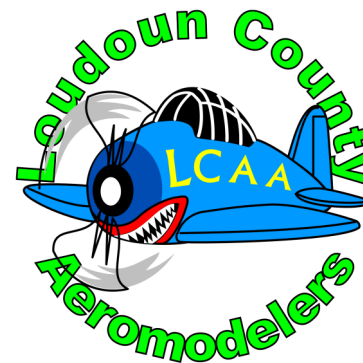

Please bring gloves and manual or battery powered yard tools that might make the work easier on you/us.

Our safety officer will also be providing our annual safety briefing which includes the changes we've made to the safety lines and other rules that keep us safe while enjoying this awesome hobby.

See you all on Saturday!!
