

# LCAA Airbag

Happy New Year everyone!!!! I hope you've gotten out to the field already

**Lots going on already folks so lets jump in:**

The park is closed for hunting on the following Friday's: 2/14, 2/21, 2/21

Indoor Winter Flying: Location - Westfield's High School. Times 8-9:30 am (or till kicked out.). February 23rd and March 8th.

Anyone interested in another Flite test plane build? We are thinking the Nut Ball as a beginner build and the Viggen as a more advanced build. Let us know if you are interested.

Field day is currently planned for Saturday March 21st. Mark your calendars and plan to come out and help prepare your flying field.

## **Now for the really important stuff:**

As you all should know by now. The FAA has posted a Notice of Proposed Rulemaking which could destroy our hobby by enacting remote ID requirements for all UAS (Unmanned Aerial Systems) over 250g, which includes both the hobbyist and commercial operators of Airplanes, Helicopters and QuadCopters.

We only have a little more than two weeks away from the deadline for comments on the FAA's proposed remote ID rule. Brian Waagner was nice enough to provide an email prepared by Josh Bardwell, who has a popular youtube channel focusing on fpv quadcopters. His email pulls together some resources on this topic. The main focus of this material is on preserving the ability of fpv quadcopter pilots to fly around abandoned buildings rather than traditional model airplanes at AMA flying fields, but their substance is supportive of recreational flying as a whole and is generally very well done. We are hoping this will help you wordsmith your opinion for submission. Please see the attached document.

### **Remember,**

Due to a scheduling conflict with the Reston Government Center our next club meeting will be Tuesday 3rd. We will go back to the second Tuesday of the month starting in April.
