

June 24 2021

LCAA Airbag

Happy end of June folks. Couple of quick reminders and updates.

Remember Saturdays June 26th, from 10 - 3 and July 3rd during our picnic, club instructors will be specially available to anyone that would like to review their setup, have support while flying or just ask questions. That's this Saturday folks.....

Don't forget: July 3rd Club Picnic - Additionally, we've heard from some members that they want to bring some planes to sell. What an awesome idea folks. If you have anything you want to offload (sell) to your fellow hobbyists bring it to the picnic at NO extra charge.

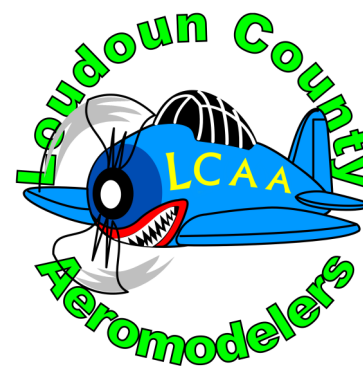

The AMA has come out with The Recreational UAS Safety Test (TRUST). If you haven't received your email from them yet you will but just in case here is the link: <https://www.modelaircraft.org/trust>

If you haven't already seen this from our LCAA.Org webpage, catch the latest [AMA Air Video](#)

IF you haven't already, follow this link to join us on [Slack](#) and don't miss out on all the banter/ conversations.....
